SUMMARY

Aspiring full-stack developer with hands-on experience in JavaScript and TypeScript, eager to contribute to impactful projects and further develop technical expertise in Vue 3, Nuxt 3, and backend technologies. Passionate about writing clean, scalable code, solving development challenges, and collaborating with teams in a dynamic, learning-driven environment. I am highly motivated to continuously expand my technical skills, explore emerging technologies, and deepen my understanding of modern development practices. Additionally, I am actively working on improving my German language skills (currently A2 level) to better integrate into international teams and diverse work environments.

KEY SKILLS

- **Front-End Technologies:** Familiar with Vue 3, Nuxt 3, and modern component-based frameworks.
- **Back-End & API Development:** Introductory experience with Node.js and integrating RESTful APIs.
- **Containerization & Deployment:** Basic understanding of Docker and Kubernetes, with eagerness to learn more.
- **Full-Stack Development:** Experience with JavaScript and TypeScript for both front-end and back-end development.
- **Version Control & Collaboration:** Proficient in Git and GitHub for managing code repositories and collaborating with teams.
- **Clean & Scalable Code Practices:** Actively refining knowledge in writing composable, testable, and efficient code within agile workflows.
